

## Locating the CLIA Certificate

Our CLIA Search hits the Clinical Laboratory Improvement Amendments data with nationwide coverage. It covers a wide range of provider types and provide you with in-depth information about the individual or entity.

You can search Provider records using the following criteria:

- Company Name
- Street Address
- City
- State
- ZIP
- CLIA Number

Results include: Company Name(s), Address, Phone(s), Lab Type, CLIA number, and Certificate type.

### Quick Start

First, try to find a CLIA record using one or more of the following search techniques:

1. Search by Company or Organization Name and State. If too many records are returned, try adding a City.
2. Search by Address, City, and State.
3. Search by CLIA Number.

Choose your result output by marking the appropriate radio button next to **Output Type**.

**Formatted HTML** provides an interactive web page including hyperlinks to generate reports.

**Cut and Paste/Printer Friendly Text (No Reports)** provides a web page with plain text, making it easier to copy and paste into a document.

### Helpful Search Tips

#### ***Search by Company Name***

On the **CLIA Certificate Search** Tab within the **Health Care** menu, type the Company Name in the **Company Name** field; then click the Search button. If more records are returned than are practical to review, refine your search as described below.

#### ***Search by Address***

On the **CLIA Certificate Search** Tab within the **Health Care** menu, type the Provider's Address, City, and State in the appropriate fields; then click the Search button. This returns records using that address. If more records are returned than are practical to review, refine your search as described below.

#### ***Search by CLIA Number***

On the **CLIA Search** Tab within the **Health Care** menu, type the Provider's NPI Number in the **CLIA Number** field; then click the Search button.

### ***Narrow List of Results***

If your search returns a long list of results, we recommend adding the following criteria, if known, in this order:

1. **State** - Entering a state narrows the results to Providers in that state.
2. **City** - Entering a city, in addition to the state, further narrows the results to Providers in the specified city and state.

### ***Expand List of Results***

If too few or no results are returned, loosen the criteria by removing the most precise or uncertain criteria (e.g. city).

### ***Find a Record in the Displayed List***

Identify the number of unique records by examining the information listed. Examine the records to determine if the displayed information fits what is known about the Provider.
